—The following lines were written on Jobby Foster's birthday, June 20th 1883, by his grandpa George McIntyre, of Worth, who is 95 years old:

We thought we heard a little birdie say

That Jobby Foster is nine years old to-day.

So we at home were dying just to know

If what the birdie said was really so.

And so to verify the birdie's twitter,

We thought we'd travel to the town of Speaker.

And with our eyes behold this hopeful boy.

His father's little pet, his mother's joy.

But then the rain rained onward without stopping.

Which almost paralyzed our earnest hoping.

And then the roads were more than ankle deep.

The thoughts of which disturbed us in our sleep.

Yet, after all, our courage seemed to rise.

In spite of muddy roads, and weeping skies.

So we resolved to share the general joy.

And celebrate the birthday of this boy.

Please God we old folks then will surely come.

To meet the Foster's in their pleasant home.

And may our gathering be without alloy.

While we observe the birthday of their boy.

But John and George although they're both away.

Shall be remembered on that happy day.

And darling Jennie, now so young and fair.

Will fill the house with happy sunshine there.

And now my dears, may heaven and earth combine.

To make your lives with grace and virtue shine.

Such is the earnest wish, and the desire.

Of old grandpa, and grandpa McIntyre.

NOAH'S ARK FOUND.

The Ancient Vessel Discovered in a Glacier on Mt. Ararat.

A Constantinople contemporary announces the discovery of Noah's ark. It appears that some Turkish commissioners appointed to investigate the question of avalanches on Mount Ararat suddenly came upon a gigantic structure of very dark wood protruding from a glacier. They made inquiries of the inhabitants (Q. 1,723 in their report). These had seen it for six years, but had been afraid to approach it because a spirit of fierce aspect had been seen looking out of the upper window. Turkish commissioners, however, are bold men, not deterred by such trifles, and they determined to reach it. Situated as it was among the fastnesses of one of the glens of Mount Ararat, it was a work of enormous difficulty, and it was only after incredible hardships that they succeeded. The ark, one will be glad to hear, was in a good state of preservation, although the angles—observe, not the bow or stern—had been a good deal broken in its descent. They recognized it at once. There was an Englishman among them who had presumably read his bible, and he saw it was made of the ancient gopher wood of Scripture, which, as every one knows, only grows on the plains of the Euphrates. Effecting an entrance into the structure, which was painted brown, they found that the admiralty requirements for the conveyance of horses had been carried out, and the interior was divided into partitions 15 feet high. Into three of these only could they get, the others being full of ice, and how far the ark extended into the glacier they could not tell. If, however, on being uncovered it turns out to be 300 cubits long, it will go hard with disbelievers in the book of Genesis. "Needless to say," says the Pall Mall Gazette, "an American was soon on the spot, and negotiations have been entered into with the local Pacha for its speedy transfer to the United States."

To the Farmers.

Editor EXPOSITOR.—In answer to the piece of Mr. Thos. Hickey's in last week's issue of the EXPOSITOR I would say that I am doubly convinced that he inserted the first item in regard to the trial at Mr. Johnson's with no other intention whatever than to bring and blow on his machine, the Hopkins mower. I do not believe he is acting in the capacity of a friend, (nor a gentleman) as he states. You talk about challenging the world to produce its equal. Challenge the Rawson for \$100, \$200 or as much as you please and you will get scooped, so bad that you will never mention Hopkins Mowers again.

Yours Truly, F. S. POOLE.

It is Hamilton's Jamaica Ginger Tonic and Pain Cure, in Rheumatism, Neuralgia, Sciatica, Bruises, Strains &c., applied externally it is excellent. Price 25 and 50 cents per bottle. Sold by C. A. Wells & Co.

CONSUMPTION.

It is said that 50,000 people die annually in the United States alone from this disease. In some sections of the country one death in every three is from Consumption. This can be, and should be avoided; our people are too careless about an ordinary cough or cold, and other symptoms of throat and lung affections that lead to this disease. You should arrest it while it is in the germ. Two or three doses of Dr. Bosanko's Cough and Lung Syrup will relieve an ordinary cough or cold. It does not dry up a cough like many preparations on the market and leave the disease behind it, but acts directly on the throat and bronchial tubes, removing all the phlegm and morbid matter that accumulates in the throat and lungs. It allays all irritation, and renders the voice clear and distinct. Sold by W. N. McKenna.
